Opening Prayer

- Lord, we ask for the grace to have a Vincentian heart.
- We give you our gifts and talents, our dreams and visions so that we may carry the mission of St. Vincent to the poor.
- We ask for the grace to have hands that work for justice, so that we may show your love to all those suffering from prejudice and inequality
- We ask for the grace to have hearts of love and compassion, so that we may bring mercy to the broken hearts of the poor. Amen

House-keeping

- Safeguarding is a sensitive topic
 - Please step away for a moment if needed
- We will stop at strategic points for questions
- Any examples should be anonymous.
 - Any name used in our examples are fictional, although some examples have happened within Vincentian work

Disclaimer

- While we can learn about the warning signs and how to react when we encounter boundary violations and/or disclosures of abuse, we should not be intentionally “scoping out” signs of abuse during a home visit or in other interactions with those we serve
- However, when we have credible fears that there may be abuse or neglect, we must act

- Safeguarding protects the rights of all people whom we serve at SVdP facilities and in the community

Policy Fundamentals

- The SVdP Indianapolis Archdiocesan Council will require certain individuals to:
 - Sign our Code of Conduct
 - Receive training on a Safeguarding Policy
 - Undergo a background check
 - Obtain SVdP photo ID
- The SVdP Indianapolis Archdiocesan Council is instituting the office of Compliance Coordinator and an Investigative Review Team
- Indiana is a “Mandatory Reporting State” which means if you **suspect** abuse, neglect, exploitation or endangerment of any person then **you** must report this to State or local officials
- Such reports must be reviewed with the Compliance Coordinator

Some Caveats

- This is a “living” Policy
 - We will improve it over time
- Though this is a change for some, it is very similar to similar policies at the Archdiocese, schools or any other organization that works with vulnerable populations
- Whenever possible we will share with other Councils and adapt better ideas

Definitions

The Policy includes definitions for the following terms (see the Handout):

- Child/Minor
- Child Abuse
- Endangered Adult
- Fiduciary Relationship
- Grooming Behavior
- Professional Relationship
- Reason to Believe
- Sexual Abuse
- Sexual Exploitation
- Sexual Harassment
- Sexual/Boundary Violations
- Sexual Misconduct
- Vulnerable Adult

Who is a Child in Indiana?

- Indiana defines a **child** as someone who is under 18 years of age
 - A child *under 16 years* of age cannot consent to any sexual act
 - A child should never be contacted via social media, email, or phone
 - A child should never be offered alcohol, controlled substances or pornographic material
- Topics or vocabulary that would not be discussed or used comfortably in the presence of parents should not be discussed or used with a child
- Any one-on-one counseling, tutoring, training, or other assistance or service with a child must be conducted in an open room setting without closed doors, except for a door with a window, and only if readily observable by others who may be in the room or in the hallway outside the room

Who is Considered an Endangered Adult?

(Indiana FSSA 2021 Resource Guide)

- An **endangered adult** is defined as an individual who is:
 - At least 18 years old
 - Incapacitated by any of the following:
 - > Mental illness

Rights and Responsibilities

- Every person “has the right
 - To bodily integrity and the means necessary for the proper development of life,
 - To be respected, [and]
 - To choose for themselves the kind of life which appeals to them”
 - *Pacem in Terris*, 11-15
- There is a corresponding responsibility to protect these rights in our actions, language, and observations
 - We can live this responsibility through appropriate behaviors and bystander intervention

Reasonableness Test for Reporting

- Signs you may see:
 - Bruises, welts, lacerations, broken bones, rope marks

Serving Central and Southern Indiana
Loving Our Neighbors for 75 Years

Neglect and Poverty

- **Poverty is a risk factor for neglect, but poverty does not equate to neglect**
- The presence of poverty alone does not mean a child is unsafe, unloved, or that a parent lacks the capacity to care for his or her child
- Poverty can make it more challenging for parents to meet certain of their children's needs
- It is our role to address gaps in care due to poverty

- Appears unable to recognize physical or emotional distress
- Blames dependent for problems
- Consistently belittles or berates the dependent
- Seems jealous of others receiving attention from the dependent
- Severely limits the dependent's contact with others
- Offers conflicting/unconvincing explanation for injuries

Elder Abuse

- **An intentional act or failure to act that causes or creates a risk of harm to an adult aged 60 or older**
- One in 10 people aged 60 and older, who live at home, experience abuse, including neglect and exploitation
- The annual loss by survivors of financial abuse is estimated to be at least \$36.5 billion

Serving Central and Southern Indiana
Loving Our Neighbors for 75 Years

Abuse Against People with Disabilities

- Developmental disorders, intellectual disabilities, communication disorders, and behavioral disorders appear to contribute to very high levels of risk of abuse

- Women with disabilities reported significantly longer durations of abuse compared to women without disabilities

Domestic Violence

- **Pattern of abusive behavior in any relationship** that is used by one partner to gain and/or maintain power and control over another intimate partner
